

Welcome to Esters!

I fell in love with wine for many reasons, but mostly because of the stories behind the bottles. Our shelves are filled with wines made by smaller producers, whose stories I know and love.

Many people are intimidated by wine. I want to change that. The truth is, it's just grape juice. It doesn't matter what you know. Just start talking to us. Or we'll start talking to you! Do you like full-bodied wine, or lighter styles? Do you like something more earthy or fruity? What's your budget? Let's have a chat.

The wines on our walls (and in the first part of this book) are separated by style. There's a separate section for our cellar bottles. (Something extra special for THAT kind of night.)

If you fall in love with a wine on our list, you can take it home. Nearly all our bottles are available in the retail shop.

So whether you're a novice or a Master Sommelier, I hope you'll find something unique to enjoy.

Cheers!

*Kathryn*

# Farming Matters!

Over the past couple of years, we've been making steps for a healthier planet and focusing on the farming behind the bottles on our shelves. All wines coming into Esters come from chemical-free vineyards, but we're all about finding winemakers that go above and beyond by implementing one or more of the following practices.

**Organic** - Farming without the use of chemical fertilizers, pesticides or other artificial agents.

**Biodynamic** - A holistic, spiritual way of farming beyond organic. Everything in the vineyard is interconnected, working in harmony with the sun, the stars and the moon.

**Dry-Farmed** - Vines cultivated without irrigation. Farmers plant a variety of drought-resistant cover crops that are mulched into the land during rainy periods.

**No-Till** - Farming without tilling or plowing. This method doesn't disturb the soil or leave it bare. It decreases erosion, runoff and weeds, AND it's a way of sequestering carbon.

**Regenerative** - A way of farming that renews and heals the land. It builds soil fertility, ecosystem diversity and draws carbon down from the atmosphere through cover crops, crop rotations, compost and animal manures. This method incorporates ALL of the other farming tenets mentioned above, and it's one of the key ways to reduce global warming.

# KATHRYN'S WINTER PICKS

## SPARKLING

### **Vilmart & Cie 'Grand Cellier' Brut Champagne NV ... 139**

*Vilmart has one of the longest and most storied histories of grower-producer champagnes, having made wine since the 1890s. Today fifth generation winemaker Laurent Champs is at the helm, farming his estates exceptionally chalky soils using organic practices. In the cellar, his meticulous winemaking and careful aging continue to further the reputation of this historic estate. In my book, this is perfect Champagne - and whoever I open it for, always seems to agree.*

## WHITE

### **Domaine de l'Alliance 'Exterier' Bordeaux Blanc ... 48**

*Within the historic region of Bordeaux, the village of Fargues is known for its legendary wine châteaux. Beyond this collection of impressive estates, lies a modest 7-hectare property owned by newcomers Valérie and Daniel Alibrand. They purchased the property from Valerie's side of the family, and founded Domaine de l'Alliance in 2005. It isn't easy for a small producer to compete with established estates in Bordeaux (or anywhere) but these wines are really special! Thankfully, the Alibrands made quite an impression on Importer Kermit Lynch, and the wines are making their way on the shelves of good shops and restaurants.*

## RED

### **Pian dell' Orino, Brunello di Montalcino 2014 ... 175**

*The Pian dell'Orino 6-hectare estate is almost more like a garden than a vineyard. With roses planted at the end rows, and wild cover crops - this place is bursting with life. It's run by the coolest couple, Caroline Pobitzer (from Alto Adige) and Jan Hendrick Erbach (from Germany). Their dream was to make wine in Tuscany, and they bought land right next to the most famous Brunello producer, Biondi Santi. Caroline & Jan are completely dedicated to biodynamics and continue to do extensive soil and agricultural research to improve the health of their little ecosystem. In addition to their meticulous farming, their wines are spectacular - elegant and ageworthy.*
