

Welcome to Esters!

I fell in love with wine for many reasons, but mostly because of the stories behind the bottles. Our shelves are filled with wines made by smaller producers, whose stories I know and love.

Many people are intimidated by wine. I want to change that. The truth is, it's just grape juice. It doesn't matter what you know. Just start talking to us. Or we'll start talking to you! Do you like full-bodied wine, or lighter styles? Do you like something more earthy or fruity? What's your budget? Let's have a chat.

The wines on our walls (and in the first part of this book) are separated by style. There's a separate section for our cellar bottles. (Something extra special for THAT kind of night.)

If you fall in love with a wine on our list, you can take it home. Nearly all our bottles are available in the retail shop.

So whether you're a novice or a Master Sommelier, I hope you'll find something unique to enjoy.

Cheers!

Kathryn

JASPER SORTUN

Farming Matters!

Over the past couple of years, we've been making steps for a healthier planet and focusing on the farming behind the bottles on our shelves. All wines coming into Esters come from chemical-free vineyards, but we're all about finding winemakers that go above and beyond by implementing one or more of the following practices.

Organic (CO) - Farming without the use of chemical fertilizers, pesticides or other artificial agents.

Practicing Organic (PO) - Follows the above practices, but doesn't have official certification from their country, as this can be a very expensive process for small farmers and winemakers. They're still doing the important work though!

Biodynamic (B) - A holistic, spiritual way of farming beyond organic. Everything in the vineyard is interconnected, working in harmony with the sun, the stars and the moon.

Dry-Farmed (DF) - Vines cultivated without irrigation. Farmers plant a variety of drought-resistant cover crops that are mulched into the land during rainy periods.

No-Till (NT) - Farming without tilling or plowing. This method doesn't disturb the soil or leave it bare. It decreases erosion, runoff and weeds, AND it's a way of sequestering carbon.

Regenerative (R) - A way of farming that renews and heals the land. It builds soil fertility, ecosystem diversity and draws carbon down from the atmosphere through cover crops, crop rotations, compost and animal manures. This method incorporates ALL of the other farming tenets mentioned above, and it's one of the key ways to reduce global warming.

KATHRYN'S APRIL PICKS

SPARKLING

Camille Saves 'Carte d'or' Grand Cru Brut Bouzy, Montagne de Reims, Champagne NV PO 116

Originally founded by Eugene Saves in 1892, this house was one of the first growers of champagne to produce wine under their own label. Today fourth generation vigneron Herve Saves is at the helm, growing everything without the use of pesticides or herbicides, and making wines that tend towards the linear and racy- with no malolactic fermentation and elevage primarily in stainless steel. This wine, all from grand cru vineyards near the town of Bouzy offers great dynamic tension, ripe red fruits from the pinot balanced by a dry chalky angularity from the chardonnay.

ROSE

Commanderie de Peyrassol 'Château Peyrassol' Rosé Côtes de Provence, France 2020 co 75

There's nothing like Provence rosé. Unfortunately, due to its popularity, most wineries use conventional farming methods and make mass produced wines. Château Peyrassol is an exception. Founded by the Knights of Templar, this estate has been making top quality wine since the 1200s! Located in the Var sub-region of Provence, Peyrassol owns 850 hectares, all surrounded by Mediterranean forest, and only 80 hectares are vines. This isn't the run-of-the-mill winery, this is a HISTORIC property that continues to produce serious, classic wines.

RED

Manincor 'der Keil' Lago di Caldaro Classico Superiore Alto Adige, Italy 2020 B 61

Grapes have been grown on the 50-hectare Manincor estate for more than four hundred years. Today led by Count Michael Goëss-Enzenberg, they focus on biodynamic viticulture - a way of working that includes: the revitalization of the soil with compost, special sowing of greenery, allowing chickens, sheep, and bees in the vineyard, and creating herbal teas with which the grapevines are treated.

Everything used in the winery comes from the estate (including wood for the barrels). A total of fifteen different grape varieties are made into wine here. And in spite of the size, everything is done by hand. Manincor translates to "hand on heart" - their work is truly a labor of love.

CELLAR WINES

Not everyone wants to splurge on a super special bottle. It's not always that kind of night. But when it is, these are my picks. -

Kathryn

A NOTE ABOUT FARMING

Esters acquired many of our cellar wines before our 2020 commitment to transparency with farming practices, so some of the following wines do not fall within our new guidelines.

However, the majority of the wines listed without symbols fall into the sustainable farming category, and use mostly organic practices.
