

Welcome to Esters!

I fell in love with wine for many reasons, but mostly because of the stories behind the bottles. Our shelves are filled with wines made by smaller producers, whose stories I know and love.

Many people are intimidated by wine. I want to change that. The truth is, it's just grape juice. It doesn't matter what you know. Just start talking to us. Or we'll start talking to you! Do you like full-bodied wine, or lighter styles? Do you like something more earthy or fruity? What's your budget? Let's have a chat.

The wines on our walls (and in the first part of this book) are separated by style. There's a separate section for our cellar bottles. (Something extra special for THAT kind of night.)

If you fall in love with a wine on our list, you can take it home. Nearly all our bottles are available in the retail shop.

So whether you're a novice or a Master Sommelier, I hope you'll find something unique to enjoy.

Cheers!

Kathryn

JASPER SORTUN

Farming Matters!

Over the past couple of years, we've been making steps for a healthier planet and focusing on the farming behind the bottles on our shelves. All wines coming into Esters come from chemical-free vineyards, but we're all about finding winemakers that go above and beyond by implementing one or more of the following practices.

Organic (CO) - Farming without the use of chemical fertilizers, pesticides or other artificial agents.

Practicing Organic (PO) - Follows the above practices, but doesn't have official certification from their country, as this can be a very expensive process for small farmers and winemakers. They're still doing the important work though!

Biodynamic (B) - A holistic, spiritual way of farming beyond organic. Everything in the vineyard is interconnected, working in harmony with the sun, the stars and the moon.

Dry-Farmed (DF) - Vines cultivated without irrigation. Farmers plant a variety of drought-resistant cover crops that are mulched into the land during rainy periods.

No-Till (NT) - Farming without tilling or plowing. This method doesn't disturb the soil or leave it bare. It decreases erosion, runoff and weeds, AND it's a way of sequestering carbon.

Regenerative (R) - A way of farming that renews and heals the land. It builds soil fertility, ecosystem diversity and draws carbon down from the atmosphere through cover crops, crop rotations, compost and animal manures. This method incorporates ALL of the other farming tenets mentioned above, and it's one of the key ways to reduce global warming.

KATHRYN'S SEPTEMBER PICKS

SPARKLING

Robert Moncuit 'Les Grands Blancs' Blanc de Blanc Extra Brut Côte des Blancs, Champagne, France NV PO 124

The Moncuit family has a long history of farming some of the best vineyards in the Côte des Blancs. They first purchased land back in 1889 and began estate-bottling almost 40 years later. Current winemaker and fourth-generation Pierre Amillet's passion for Chardonnay and the region's signature chalky soils knows no limits. The grapes for this cuvée come from select parcels in the family's Le Mesnil-sur-Oger Grand Cru vineyards.

WHITE

Oliver Pithon 'Cuvee Les Lais', Cotes Catalanes, France 2020 B 57

Olivier Pithon grew up in the Loire Valley, frolicking amongst fruit, playing around in the cellar, and tending his family's vines at the young age of 14. Four years later, he left to study wine in Bordeaux, and then on to internships in Jurançon and Beaujolais. In the year 2000, Olivier moved to Calce, a small village in the Pyrénées-Orientales to start his own project. Today, Olivier is proud to farm 8.5 hectares all biodynamically. His vines are rooted into schist and limestone soils at high elevations, which lead to concentrated and healthy fruit that immensely reflect the place from which it comes. This is a complex, high acid, mineral white that is nicely textured and age worthy with good minerality.

RED

Cume Do Avia 'Dos Canotos Brancellao, Ribeiro, Spain 2020 co 103

For Diego and his brother, Álvaro, the bustle of city life wasn't in their blood, so in their early twenties they embarked on the courageous restoration of vineyards in an ancient ruin where their grandparents once lived. Dense with trees and underbrush, the property sits on the top of a hill (a Cume) above the river Avia in Galicia. With no family wealth, they took out loans to buy heavy machinery (which none of them had ever used before) and began to carve out the land. By 2008 they planted their first vines (all native varieties), and finally in 2012 they made wine for the first time ever! Five years later, in 2017, their production started to turn heads... All of their wines are elegant and energetic expressions of rare grapes. Wow!

CELLAR WINES

Not everyone wants to splurge on a super special bottle. It's not always that kind of night. But when it is, these are my picks. -

Kathryn

A NOTE ABOUT FARMING

Esters acquired many of our cellar wines before our 2020 commitment to transparency with farming practices, so some of the following wines do not fall within our new guidelines.

However, the majority of the wines listed without symbols fall into the sustainable farming category, and use mostly organic practices.
