

Welcome to Esters!

I fell in love with wine for many reasons, but mostly because of the stories behind the bottles. Our shelves are filled with wines made by smaller producers, whose stories I know and love.

Many people are intimidated by wine. I want to change that. The truth is, it's just grape juice. It doesn't matter what you know. Just start talking to us. Or we'll start talking to you! Do you like full-bodied wine, or lighter styles? Do you like something more earthy or fruity? What's your budget? Let's have a chat.

The wines on our walls (and in the first part of this book) are separated by style. There's a separate section for our cellar bottles. (Something extra special for THAT kind of night.)

If you fall in love with a wine on our list, you can take it home. Nearly all our bottles are available in the retail shop.

So whether you're a novice or a Master Sommelier, I hope you'll find something unique to enjoy.

Cheers!

*Kathryn*

# Farming Matters!

Over the past couple of years, we've been making steps for a healthier planet and focusing on the farming behind the bottles on our shelves. All wines coming into Esters come from chemical-free vineyards, but we're all about finding winemakers that go above and beyond by implementing one or more of the following practices.

**Organic (CO)** - Farming without the use of chemical fertilizers, pesticides or other artificial agents.

**Practicing Organic (PO)** - Follows the above practices, but doesn't have official certification from their country, as this can be a very expensive process for small farmers and winemakers. They're still doing the important work though!

**Biodynamic (B)** - A holistic, spiritual way of farming beyond organic. Everything in the vineyard is interconnected, working in harmony with the sun, the stars and the moon.

**Dry-Farmed (DF)** - Vines cultivated without irrigation. Farmers plant a variety of drought-resistant cover crops that are mulched into the land during rainy periods.

**No-Till (NT)** - Farming without tilling or plowing. This method doesn't disturb the soil or leave it bare. It decreases erosion, runoff and weeds, AND it's a way of sequestering carbon.

**Regenerative (R)** - A way of farming that renews and heals the land. It builds soil fertility, ecosystem diversity and draws carbon down from the atmosphere through cover crops, crop rotations, compost and animal manures. This method incorporates ALL of the other farming tenets mentioned above, and it's one of the key ways to reduce global warming.

# KATHRYN'S MARCH PICKS

## SPARKLING

### **Jumping Juice 'Pet-Nat' Riverland, Australia NV PO 50**

*Jumping Juice. The very name is a prompt to embrace life. Its very raison d'être simply to be delicious and to act as a catalyst for carousing with the fine folks with whom you surround yourself. These are all very noble causes worth pursuing and Jumping Juice is your conduit to these good times. Jumping Juice is a partnership between Patrick Sullivan and Xavier Goodridge. Patrick and Xavier have been kicking around and heading on adventures together since they were 18, heading to London together to take on the local wine scene. Now back in their homeland of Australia, they are nuts about making the most of their wine knowledge - sourcing organic and biodynamic grapes to make natural wines you want to drink! This is the first vintage of the pét-nat.*

## WHITE

### **Grabenwerkstatt 'Grabenwerk' Gruner Veltliner, Wachau, Austria B 99**

*Franz Hofbauer and Michael Linke have a clear vision for their winery: from vineyard to cellar (plant-protection, vineyard management, harvest, fermentation and bottling) nothing is introduced to the winemaking process that isn't given to them by nature. Naturally, they practice Biodynamics in their 2 hectares of vineyards in the "Spitzer Graben". This valley runs perpendicular to the Wachau and is known for its cooler microclimate, steeply terraced vineyards, and a kind of austere primal rock. Here some of the most extreme vineyards (in terms of temps but also steepness) had been abandoned by winemakers who no longer wanted to work these harsh conditions. The Grabenwerkstatt project is ambitious and awe-inspiring.*

## RED

### **Brown Estate, Zinfandel, Napa Valley, California 2021 PO 110**

*Brown was the first Black-owned winery in Napa Valley. From Deneen, David, and Coral Brown: "In 1980 our parents purchased an abandoned ranch in the eastern hills of the Napa Valley. They rehabilitated the crumbling homestead and planted viniferous grapes - which for a decade we farmed and sold to local winemakers. In 1995 we kids decided to make our own wine. We established the Brown Estate label officially in 1996 when we harvested what would become our first bottling of Brown Zin....Our business has grown slowly but surely as our brand has gained increasingly broad exposure to an extraordinarily diverse audience thanks to word of mouth IRL and on social media." This is their 24th vintage of the flagship wine.*

# CELLAR WINES

---

Not everyone wants to splurge on a super special bottle. It's not always that kind of night. But when it is, these are my picks. -

Kathryn

## A NOTE ABOUT FARMING

Esters acquired many of our cellar wines before our 2020 commitment to transparency with farming practices, so some of the following wines do not fall within our new guidelines.

However, the majority of the wines listed without symbols fall into the sustainable farming category, and use mostly organic practices.
