

Welcome to Esters!

I fell in love with wine for many reasons, but mostly because of the stories behind the bottles. Our shelves are filled with wines made by smaller producers, whose stories I know and love.

Many people are intimidated by wine. I want to change that. The truth is, it's just grape juice. It doesn't matter what you know. Just start talking to us. Or we'll start talking to you! Do you like full-bodied wine, or lighter styles? Do you like something more earthy or fruity? What's your budget? Let's have a chat.

The wines on our walls (and in the first part of this book) are separated by style. There's a separate section for our cellar bottles. (Something extra special for THAT kind of night.)

If you fall in love with a wine on our list, you can take it home. Nearly all our bottles are available in the retail shop.

So whether you're a novice or a Master Sommelier, I hope you'll find something unique to enjoy.

Cheers!

Kathryn

Farming Matters!

Over the past couple of years, we've been making steps for a healthier planet and focusing on the farming behind the bottles on our shelves. All wines coming into Esters come from chemical-free vineyards, but we're all about finding winemakers that go above and beyond by implementing one or more of the following practices.

Organic (CO) - Farming without the use of chemical fertilizers, pesticides or other artificial agents.

Practicing Organic (PO) - Follows the above practices, but doesn't have official certification from their country, as this can be a very expensive process for small farmers and winemakers. They're still doing the important work though!

Biodynamic (B) - A holistic, spiritual way of farming beyond organic. Everything in the vineyard is interconnected, working in harmony with the sun, the stars and the moon.

Dry-Farmed (DF) - Vines cultivated without irrigation. Farmers plant a variety of drought-resistant cover crops that are mulched into the land during rainy periods.

No-Till (NT) - Farming without tilling or plowing. This method doesn't disturb the soil or leave it bare. It decreases erosion, runoff and weeds, AND it's a way of sequestering carbon.

Regenerative (R) - A way of farming that renews and heals the land. It builds soil fertility, ecosystem diversity and draws carbon down from the atmosphere through cover crops, crop rotations, compost and animal manures. This method incorporates ALL of the other farming tenets mentioned above, and it's one of the key ways to reduce global warming.

KATHRYN'S MAY PICKS

SPARKLING

Laherte Freres 'Rose de Meunier' Extra Brut, Champagne NV PO 128

This is impeccably made, natural Champagne! Founded in 1889 by Jean-Baptiste Laherte, this estate has been family owned and operated for seven generations. Located in the Côteaux Sud D'Epernay (a sub-region between the Cotes des Blancs and the Vallee de la Marne) they are dedicated to biodynamic and organic viticulture. Since 2005, under the direction of the young Aurélien Laherte, the estate has become one of the most progressive and dynamic rising stars in the appellation. This cuvée is made from 100% Pinot Meunier - it's fruity and rich, dry and yeasty. Delicious!

WHITE

Les Heritiers du Comte Lafon Macon Prisse, France 2021 B,CO 74

In Meursault, Dominique Lafon is making arguably one of the worlds best white wines and for a hefty price tag. But in 1999 Lafon expanded into Mâcon to start a second label. He says: "In 30 years here I've added no more than four hectares or so. It's just too expensive. I have a restless personality, and by 1999 felt ready to take a risk. Mâcon was ideal: an hour away, the same soil, the same grape - it was easy!" Now with his nephew and daughter, Pierre and Léa Lafon, in charge, the gospel of quality Mâconnais is spreading far and wide, with a clear and definitive voice. This Chardonnay has elegance, texture and beautiful complexity.

RED

Phelan Farm 'Autrement' San Luis Obispo, California 2021 R 100

In 2020, Raj Parr (famed Sommelier, author, winemaker) set out to do something rather different: farm. He traded a lifestyle of traveling, consulting, and wine educating for a more rooted mode of living in Cambria, a secluded town on California's Central Coast. He works on a magical few acres of vines nestled between the mountains and the Pacific: Phelan Farm. The vines are farmed regeneratively, with close attention to the larger ecosystem and an emphasis on the interconnection between the vineyard and uncultivated nature. For the first time, Raj is directing the whole process of production - from vine to cellar to bottle. This wine is blend of Gamay, Mondeuse and Pinot Noir - a unique red wine with some luscious red fruit and orange peel, with earthy character.

CELLAR WINES

Not everyone wants to splurge on a super special bottle. It's not always that kind of night. But when it is, these are my picks. -

Kathryn

A NOTE ABOUT FARMING

Esters acquired many of our cellar wines before our 2020 commitment to transparency with farming practices, so some of the following wines do not fall within our new guidelines.

However, the majority of the wines listed without symbols fall into the sustainable farming category, and use mostly organic practices.
