

Welcome to Esters!

I fell in love with wine for many reasons, but mostly because of the stories behind the bottles. Our shelves are filled with wines made by smaller producers, whose stories I know and love.

Many people are intimidated by wine. I want to change that. The truth is, it's just grape juice. It doesn't matter what you know. Just start talking to us. Or we'll start talking to you! Do you like full-bodied wine, or lighter styles? Do you like something more earthy or fruity? What's your budget? Let's have a chat.

The wines on our walls (and in the first part of this book) are separated by style. There's a separate section for our cellar bottles. (Something extra special for THAT kind of night.)

If you fall in love with a wine on our list, you can take it home. Nearly all our bottles are available in the retail shop.

So whether you're a novice or a Master Sommelier, I hope you'll find something unique to enjoy.

Cheers!
Kathryn

JASPER S

Farming Matters!

Over the past couple of years, we've been making steps for a healthier planet and focusing on the farming behind the bottles on our shelves. All wines coming into Esters come from chemical-free vineyards, but we're all about finding winemakers that go above and beyond by implementing one or more of the following practices.

Organic (CO) - Farming without the use of chemical fertilizers, pesticides or other artificial agents.

Practicing Organic (PO) - Follows the above practices, but doesn't have official certification from their country, as this can be a very expensive process for small farmers and winemakers. They're still doing the important work though!

Biodynamic (B) - A holistic, spiritual way of farming beyond organic. Everything in the vineyard is interconnected, working in harmony with the sun, the stars and the moon.

Dry-Farmed (DF) - Vines cultivated without irrigation. Farmers plant a variety of drought-resistant cover crops that are mulched into the land during rainy periods.

No-Till (NT) - Farming without tilling or plowing. This method doesn't disturb the soil or leave it bare. It decreases erosion, runoff and weeds, AND it's a way of sequestering carbon.

Regenerative (R) - A way of farming that renews and heals the land. It builds soil fertility, ecosystem diversity and draws carbon down from the atmosphere through cover crops, crop rotations, compost and animal manures. This method incorporates ALL of the other farming tenets mentioned above, and it's one of the key ways to reduce global warming.

KATHRYN'S NOVEMBER PICKS

WHITE

Domaine aux Moines, Savenniers Roche aux Moines, France 2021 CO 125

This is a classic Loire Valley estate, founded in 1981 Madame Monique Laroche, a true force of nature. Tessa Laroche joined her mother over twenty years ago - she says it was fate. "I watched my mother make wine since I was a little girl. I would look at her working and think 'wow' - she can make a hard job look natural." Today Tessa maintains tradition and is working with biodynamic techniques. Her vineyards are tiny - just 12 hectares of Chenin Blanc planted in the Savennières sub-appellation of Roche Aux Moines. The vineyards sit on hillsides overlooking the Loire, and the proximity to the river helps to temper the cold of the region and protect against springtime frosts. This is elegant white wine to drink now or age for 15-20 years.

RED

Aia delle Monache, 'Giusto Un Litro', Terre del Volturno, Italy NV PO 64

Growing up in Campania, brothers Vittorio and Michele Verzillo have always been passionate about wine. But they didn't grow up in the vineyards. They are accountants by trade (in fact they have their own accounting business that they run together) but both had formal sommelier training. When the opportunity came along to purchase a vineyard of Pallagrello (an ancient local grape, rarely seen) they knew they couldn't pass it up! They began a passion project making natural wine from rare, local varietals. Unlike so many of the folks around them, they do not have generations of family winemaking history to guide them, so at times they've leaned on those that do. Now in their 50s, they have a beloved following and the wines sell out every vintage!

Cantina Gungui, 'Berteru - Nuraghe Sas de Melas', Cannonau di Sardegna 2021 CO 115

Berteru means sincere in the Mamoiada dialect. You only need to spend a few minutes with Luca Gungui to know why he gave his wine this name. He himself is a genuine soul. He wants his wine to reflect the expression of the soil and the area from which it comes. That area is the impossibly small town of Mamoiada in the province of Barbagia in the hills of central Sardinia. Talk about remote - it takes at least 2 days to get there once you land on the island/Here in these hills is where Cannonau, long considered Sardinia's most important red, grows best. Luca farms his grandfather's three hectares of bush-trained Cannonau. I think it's quite a miracle to enjoy this rare gem from the middle of nowhere.

CELLAR WINES

Not everyone wants to splurge on a super special bottle. It's not always that kind of night. But when it is, these are my picks. -

Kathryn

A NOTE ABOUT FARMING

Esters acquired many of our cellar wines before our 2020 commitment to transparency with farming practices, so some of the following wines do not fall within our new guidelines.

However, the majority of the wines listed without symbols fall into the sustainable farming category, and use mostly organic practices.
